About Me

I'm a third-year Software Engineering student at the University of Phayao, seeking an internship in Software Testing, UX/UI Design, or Business Analysis between November 2025 and March 2026.

Although my GPA may not fully reflect my abilities, I'm highly motivated, fast-learning, and passionate about solving real-world problems through tech and design.

- Nickname: Belle
- Age: 20 years old

- Development: VS Code, Git, GitHub

Project

UP TALK

UP TALK is an internal discussion platform for the University of Phayao. I led the UX/UI design to deliver a clean and intuitive user experience, improving usability and engagement through user-centered design and iterative feedback.

cookzy

Cookzy is a recipe platform with categorized menus and smart ingredient-based search. I handled both UI design and back-end development, ensuring smooth user interaction and efficient recipe management.
